The 2020-2021 financial aid awards are based on 2018 calendar year income and resources. In some cases, special circumstances may qualify for a re-evaluation of financial need. This re-evaluation is performed using financial data corresponding to either the 2018 calendar year or the 2020-2021 academic years. We cannot decrease your income due to market losses or credit payments due to consumer debt. Any changes to financial aid awards will be contingent on the type of funds available and eligibility policies and regulations. Processing timeframe may vary depending on the time of the year and volume of requests our office receives.
